CURRENT EMPLOYMENT:

Capital City Consultants

Helena, Montana

Dates: April 2010 – Present

Title: Vice President/CEO

Duties: Co-founder of a thriving and well-established Forensic practice. She has provided valuable information to the Trier of Fact through both written reports and expert testimony and has been deemed an expert witness across states in the general areas of Neuropsychology, Clinical Psychology, Forensics, Civil, and Family Law. Further, based on her objective stance, she is consulted with by multiple referral sources, including prosecution and defense counsel, regarding topics such as Involuntary Commitment, Mental State, Fitness to Proceed, Death Penalty, Adult and Adolescent Violence and Sexual Risk, Traumatic brain injury, Trauma and Abuse, Neuropsychological Deficits, Parenting, and Dependency and Neglect. Due to her level of expertise, she has also provided education on clinical and forensic matters to a vast audience, including lawyers, college students, clinicians, community agencies, and

consumers both locally and statewide. In addition, she has helped develop national standards regarding clinical competencies for conducting various types of forensic evaluations. Moreover, Dr. Smelko provides neuropsychological services for community-based providers throughout Montana and the greater Northern area and for a Medical Genetics department addressing congenital malformations and deformations, in utero exposure to toxins, and metabolic diseases. She is currently licensed in Montana, Colorado, Alaska, and Wyoming, and is certified PSYPACT-APIT (Authority to Practice Interjurisdictional Telepsychology) and TAP (Interjurisdictional Practice Certificate, Temporary Authorization to Practice).

Evaluations. As a company, we also provide consultation/evaluation services regarding sex offense specific evaluations, involuntary commitment, reality impairment, Eye Witness Testimony Issues, Civil Issues regarding Mental Damages, Traumatic Brain Injury, Child Sexual Abuse/Abuse allegations, Forensic Interviewing of Children, Battered Wife Syndrome, Suicide Prevention, Bullying/School Threat, and Developmental Disability issues, and Conduct, Trauma and Social/Emotional assessments for young children (1-7). Overall, Capital City Consultants provides a wide array of psychological services, and a comprehensive list of those services can be provided upon request.

Shodair Children's Hospital

Helena, Montana

Title: Licensed Psychologist-Medical Genetics Department, Newborn Screening and Follow-Up Clinics: May 2010-Present

Duties: Provide an array of services to a diverse population in the genetics department, newborn screening and follow-up clinics, and various referral sources throughout the state of Montana, entailing comprehensive psychological and neuropsychological evaluations, consultation, diagnostic clarification, treatment recommendations, outreach, psychoeducation, advocacy, and service delivery. Additionally, act as a consultant for various professionals on the acute and residential units and the outpatient clinic of the psychiatric facility.

Participation in assuring the quality of patient care remains high through participation in staff meetings and feedback sessions with family and treatment teams. Provide information and participate in peer review processes. Provides services within the framework of hospital quality assurance programs. Provides education for staff, patients, and the community on a variety of topics and areas of need. Assist with general program development, implementation, and oversight, including community outreach and programming. Also participate in research opportunities such as to help advance patient evaluation, diagnostics, and aftercare.

Provide direct supervision for doctoral-level psychology students, partnering with the University of Montana, and practicum placements through the Shodair Medical Genetics Department.

Title: Director of Psychology-Psychiatric Department: May 2010-December 2015: Duties: Provided direct oversight and supervision to the psychology and speech and language departments. Provided quality psychological services in a range of treatments in the inpatient and residential settings. Provided psychological, neuropsychological, psychoeducational evaluations, and risk assessments (violence/psychosexual). Additionally, psychoeducational training and consultation include recommendations for diagnosis, treatment, and service delivery placement for children and adolescents.

Participated in assuring that the quality of patient care remains high through participation in staff meetings and feedback sessions with family and treatment teams. Provides information and participates in peer review process. Provides services within the framework of hospital quality assurance programs. Provides education for staff, patients, and the community on a variety of topics and areas of need. Assisted with general program development, implementation, and oversight, including community outreach and programming.

PAST PROFESSIONAL EXPERIENCE:

Steel City Consultants/Private Practice

Pueblo, Colorado

Dates: August 2005 – December 2018

Title: I was the cofounder, with transition to professional consultant to a private practice that provided comprehensive mental health services throughout Colorado. Psychological and forensic services included but were not limited to: Sex offense-specific evaluations for adult and adolescent populations for referring parties such as the courts, attorneys, and treatment providers. Evaluations provided ranged from Psychosexual Risk Assessments, Violent Predator Assessments, PPG, Abel, Affinity, Parental Risk Assessments, Custody evaluations, Sanity/Mental State, Fitness to Proceed, and comprehensive psychological and neuropsychological evaluations. We also provided consultation services for the other members of the practice regarding reality impairment and developmental disability issues and conducted trauma and social/ emotional assessments for young children (1-7). Individual, family, and group therapy for clients across the cultural, economic, developmental, and diagnostic spectrum were also provided. Steel City Consultants provided a wide array of psychological services, and a comprehensive list of those services can be provided upon request.

Colorado Mental Health Institute-Pueblo: Institute for Forensic Psychiatry

Pueblo, Colorado

Dates: January 2007 – April 2010

Duties: Complete Restoration Reports and Competency Evaluations to expedite progression of Observation and Incompetent to Proceed legal statuses. Identify and interpret psychological assessments appropriate to the question of competency or restoration and to assist in Sanity/Mental Status Examinations. Assess competency and feigning among multi-diagnostic and difficult-to-treat individuals who are anticipating significant legal consequences, including juveniles. Develop and deliver to the court via expert testimony, professional opinion regarding diagnosis, personality characteristics, and legal issues. Assist in providing competency restoration and assessment training, as well as data collection pertaining to Incompetent to Proceed patients. Participate in quality assurance reviews. Was deemed an expert witness in multiple judicial districts, particularly pertaining to youth.

El Pueblo Adolescent Treatment Program

Pueblo, Colorado

Dates: May 2005-February 2007

Duties: Work within a residential treatment center, including consultation and coordination with all departments (clinical, medical, education, milieu, human resources). Provide crisis intervention, individual, group, and family therapy, and case management services to at-risk youth with diverse cultural, economic, and diagnostic backgrounds. Formulate and monitor treatment and behavioral plans. Participate in utilization reviews, foster care reviews, individualized education plans, program development, quality assurance, and milieu programming. Facilitate meetings and provide training for clinical and milieu staff. Network with community agencies such as Probation, Parole, Department of Human Services, District Attorney, and Department of Youth Corrections. Provide cognitive and psychological/personality testing to assist with differential diagnosis. Provide treatment and evaluation for sexually offending youth. Assisted in program development and oversaw/implementation services for the dual diagnostic program for the developmentally delayed. Supervise internship and practicum students.

St. Mary Corwin

Pueblo, Colorado

Dates: September 2003 – April 2006

Duties: Psychiatric Liaison for the Emergency Department and medical units. Conducted psychological assessments, referrals to outpatient resources or inpatient hospitalization, crisis intervention, support during trauma cases, group therapy, and brief individual and family counseling. Worked closely with the Pueblo Police Department and the Department of Human Services, as well as other referral agencies, to aid in quality patient care and follow-up services.

Creative Innovations, Inc.

Phoenix, Arizona

Dates: August 2000 – August 2002

Duties: Provided home-based, individual, couples, family, and substance abuse counseling to juvenile delinquents aged 8-18. Conducted intake assessments, psychological evaluations, crisis intervention, life skills training, vocational rehabilitation, career planning, and parenting skills. Provided case management and treatment services, including consulting with schools and social services. Designed and implemented treatment plans, coordinated services, maintained appropriate records, and participated in court proceedings for pre-adjudicated and adjudicated children and adolescents. Participated in outreach services and program development.

Southwest Behavioral Health Centers

Scottsdale, Arizona

Dates: July 1998- August 2000

Duties: Conducted individual, group, family, and substance abuse counseling to chronically mentally ill women aged 18-80 in a residential treatment facility. Provided crisis intervention, life skills, and pre-vocational training. Also provided case management and treatment services. Designed and implemented treatment plans and screened potential residents. Coordinated services and created and maintained appropriate records. Facilitated outreach programs, evaluation research, and program administration.

Lovaas Program Therapist

Residential Counseling Service

Rockford, Illinois

Dates: January 1998 – June 1998

Duties: Implemented behavior modification techniques to teach life skills, communication, and social skills to neurodivergent children. Assisted in designing treatment plans and coordinating services.

POST DOCTORAL CLINICAL EXPERIENCE:

St. Mary Corwin

Pueblo, Colorado

Dates: September 2003-April 2005

Duties: Worked with a multidisciplinary treatment team in a hospital setting. Conducted clinical assessments, referral and treatment recommendations, and crisis intervention for medical and psychiatric patients. The position often required working as a liaison between the two populations and the multiple team members. Provided consultation and evaluative services for psychological, neuropsychological, and cognitive testing. Provide education, assessment, treatment recommendations, and referral sources, as well as facilitate support groups for diabetic patients and their families. Other services include individual, family, and group therapy, case management, and program development for the inpatient behavioral health unit.

Devereux Cleo Wallace- Colorado Springs

Colorado Springs, Colorado

Dates: October 2003-June 2004

Duties: Worked within an adolescent residential treatment center. Provided individual, family, and group therapy for culturally and economically diverse patients across the developmental spectrum with a range of diagnostic impressions. Assisted in program development and implemented services for the dual diagnostic program for the developmentally delayed. Provided crisis intervention, life skills training, vocational rehabilitation, intensive sexual offender and survivor of traumatic experiences, and substance abuse counseling. Acted as a consultant to assist in appropriate school and classroom placement for adolescents with emotional, developmental, and behavioral difficulties. Attended foster care reviews and assisted with Individualized Education Plan meetings. Coordinated outpatient services and discharge planning. Served as an advocate for adolescents in the legal system (worked with probation officers and attended court hearings). Was afforded the opportunity to participate in program development and quality assurance reviews. In addition, supervised practicum students' individual and family cases, performed on-call duties, pre-certification, and re-certification for insurance benefits (utilization reviews), headed treatment plan reviews, behavioral support plans, staff training, and milieu programming, and assisted in triaging patients.

GRADUATE and PRE-DOCTORAL CLINICAL EXPERIENCE:

Pre-Doctoral Internship Program in Clinical Psychology

University of Utah Neuropsychiatric Institute –APA accredited

Salt Lake City, UT

Dates: August 2002- August 2003

Duties: Worked within a multidisciplinary setting within the child, adolescent, and adult inpatient psychiatric units and child and adolescent day treatment programs. Additionally, worked with a multidisciplinary team on the medical and geriatric psychiatry units providing comprehensive

neuropsychological and diagnostic assessments, consultation, and treatment recommendations pertaining to diverse medical, neurological, and mental health conditions.

Provided individual, family, and group therapy for culturally and economically diverse patients across the developmental spectrum with a range of diagnostic impressions. Provided crisis intervention, life skills training, vocational rehabilitation, and substance abuse counseling. Conducted psychological, psychoeducational, and neuropsychological assessments. Acted as a consultant to assist in appropriate school and classroom placement for children and adolescents with emotional, developmental, and behavioral difficulties. Attended foster care reviews and assisted with Individualized Education Plan meetings. Coordinated outpatient services. Was afforded the opportunity to participate in program development and attend various committees, including the Utilization Review committee and Ethics committee. In addition, supervised practicum students' individual and family cases, performed on-call duties, and assisted in triaging patients. Provided case management and outpatient therapy to individuals and families.

Graduate Clinical Experience

Arizona State Hospital

Phoenix, Arizona

Dates: September 2000 – August 2001

Duties: Provided individual, group, family, sexual abuse/trauma, and substance abuse counseling to seriously mentally ill children, adolescents, and adults with behavioral and affective difficulties in an inpatient setting. The primary population consisted of children and adolescents aged 4-18 from culturally and economically diverse backgrounds. Areas addressed consisted of Pervasive Developmental Disorders, Autism Spectrum disorders, Attention/Deficit-Hyperactivity Disorder, Oppositional Defiant/Conduct Disorders, Mood Disorders, Psychotic Disorders, Anxiety Disorders, and Trauma/Post-Traumatic Stress Disorders. In addition, individual therapy was provided for children and adolescent sexual perpetrators. Worked with a multidisciplinary team in the formulation and implementation of treatment plans, case management, and crisis intervention. Administered and interpreted integrative diagnostic psychological, neuropsychological, and psycho educational evaluations and risk assessments. Assessed and educated juvenile delinquents court court-ordered for restoration to competency. Conducted discharge planning and facilitated research and program development. Formulated and conducted adolescent sexuality and abandonment, and loss groups.

Glendale Elementary School District

Glendale, Arizona

Dates: November 1999- May 2000

Duties: Worked with a multidisciplinary team in the formulation of individualized education and treatment plans for culturally and economically diverse students aged 5-12. Specifically, discussed the strengths and weaknesses of individual children and methods to increase academic achievement and decrease disruptive behaviors within the classroom setting. Administered and interpreted integrative diagnostic psychoeducational evaluations. Facilitated a social skills group for Behavior Modification and Self-Contained Classes. Discussed relevant issues regarding individual students' social/emotional status, cognitive abilities, and therapy needs. Assessed for sexual and physical abuse. Participated in an outreach program to assist families in need. Provided individual therapy and family therapy.

Adobe Mountain Juvenile Corrections Center

Phoenix, Arizona

Dates: June 1999- November 1999

Duties: Worked with juvenile offenders aged 7-18 in a medium security facility, providing individual and family therapy, substance abuse counseling, and assessment of psychological issues and educational needs. Worked with a multidisciplinary team in the formulation of individualized education and treatment plans for the juveniles. Conducted comprehensive psychological evaluations and risk assessments. Participated in staff meetings to determine the social/emotional status of the juveniles and set tentative discharge dates and aftercare planning. Assisted in formulating alternative housing and assessing probation issues

regarding juveniles pending release. Co-facilitated groups for adolescent sexual perpetrators and trauma/abuse victims.

Arizona School of Professional Psychology

Phoenix, Arizona

Dates: June 1998 – August 2003

Duties: Teaching assistant for various clinical courses including psychological assessment. Provide instruction as well as grading assignments and tests.

Janet Wattles Mental Health Center

Rockford, Illinois

Dates: January 1998- June 1998

Duties: Provided individual and group therapy to adult mentally ill clients in an outpatient facility. Facilitated several outpatient groups including an intensive day treatment program and Dialectical Behavior Therapy Groups for clients diagnosed with borderline personality disorder. Supervised outings and assisted with case management within the community.

PROGRAM DEVELOPMENT:

Colorado Mental Health Institute

Pueblo, Colorado

2008 -2009

Duties: Co-facilitated the development of the Practice Guidelines for Forensic Psychiatric Evaluation of Competency to Stand Trial. Also, co-facilitated the development and implementation of quality assurance and programmatic changes within the Court Services Department and oversight of new employees entering the department.

Shodair Children's Hospital

Helena, Montana

2010 – Present

Duties: Co-facilitated the restructuring and ongoing development of the Newborn Screening and Metabolic Follow-Up Clinics. Provided guidance for the utility and implementation of neuropsychological evaluation for the Genetics and Metabolic departments. Gather data regarding best practices in the treatment of youth with serious mental illness and their families. Assist in implementing best practices by facilitating changes in programming and treatment interventions and providing education to staff members and the community. Assist in community outreach and education to aid in continuity of care and facilitate wrap around services.
